Overview:

Nuvocca Beauty is a College for students studying Beauty Services. The fitout of their new college space in Parramatta has created a fresh, functional and inspirational place for students to learn, demonstrate and practice skills of the beauty industry. Aspen supplied quality custom joinery and upholstery for the fitout, working together with other trades to ensure a coordinated install. The coalescing of gloss laminates, satin paint finishes, glass and Caesarstone have created salon luxury settings; a functional and pleasant environment for staff and students at Nuvocca.
