Overview:

The refurbishment of two executive suites at Sheraton on the Park Hotel is an impressive transformation. Aspen worked with world renowned architect Mr. Joseph Pang and the team at Shape Group to refurbish the suites. Aspen manufactured quality custom items in luxury finishes, bringing the design concept to an impressive reality. We worked with a range of unique finishes to bring this project together, including polished brass, luxury embossed leather, leather tabs, veneer, mirror & luxury upholstery fabrics; a classy blend of quality materials and quality craftsmanship give the hotel rooms an air of welcoming sophistication. Together the Aspen and SHAPE teams were able to complete the project smoothly allowing the hotel to remain operational throughout the course of the refurbishment.
